The question of preparing evidence to go before the freight rates commission was discussed and it was decided to collect information and prepare a case to be laid before the commission.
Messrs J. R. Benoit, W. T. Henry, G. H. Graydon, S. R. Benoit, T. Hourston, C. W. J. Haworth and St. George Jellett were elected members of the board and the name of Mr. McBride was substituted for that of Mr. Corrivenu as representing the Edmonton Hardware Company on the board.
Commercial's Vancouver report, Nov. 26th: "Manitoba oats, per ton \$25; Edmonton district oats, \$24; local oats, \$23; Washington State wheat, \$20.50; do, oats, \$24, f. o. b. Vancouver." Edmonton's exports are beginning to tell when they secure a separate quotation in the Commercial. The quotation of Edmonton oats at \$1.00 a ton less than Manitoba is accounted for by the fact that the Manitoba quotation is only nominal. It is what would have been paid for Manitoba oats if they were being purchased, not what is actually being paid for them, unless for milling purposes. The quotation of Washington State oats at the same figure as Edmonton is not a proof that they are of equal quality, which they are not; but as long as an unlimited quantity of Washington oats can be procured at these and slightly lower prices and as long as the coast is Edmonton's only market, we will have to be satisfied. The price at which Washington oats can be laid down is the price that will govern Edmonton oats.
On Tuesday last Norman Lauder, son of Jas. Lauder, sen., went from town to Mr. Lauder's farm about three miles north of town for a load of hay. He was alone. When the hay was about half on he looked up and saw two Indians near to him, one of them carrying a gun. They came up to him, and one of them asked him if he had any money. He replied that it was none of the Indian's business. The Indian seized the pitchfork which Lauder held in his hand and took it from him, and at the same time struck at him. Lauder clenched the Indian and they fell. The other Indian then seized Lauder and held him while the first one searched his pockets and took a dollar in silver from him. They then started off towards the west, taking the pitchfork with them. The police were promptly informed of the affair and have since been searching for the Indians.

S. S. TAYLOR returned on Saturday from a deer hunt between Limestone lake and Ft. Saskatchewan. He brought home three deer. He was accompanied by James Inkster. The deer shot were of the black tailed variety, a large buck and two does. Deer were numerous in the Beaver hills and also elk, but the weather was so cold that it was difficult to approach them. Only one moose track was seen.
OATS are still rolling in. Prices are the same as last quoted, 20c cash, being the standard for feed. Barley and wheat are also coming in freely. Shipments of oats are being made although buyers complain that prices at the coast will not warrant shipment for feed. Two cars of milling oats have gone to Brackman & Ker at New Westminster and there is more to follow. The price is 20c on the track.
THE electric light gave out on Thursday evening last, and has not been on since. For some time past the light has been weak and unsatisfactory, owing to the disarrangement incident to the putting in of a new plant. JOSEPH GRIENSWAITE, cook at the Columbia House, met with a severe shock on Wednesday evening that laid him up for some time and which might have cost him his life. In the afternoon he was placing hams in the cellar, the entrance to which is covered with a loose door. It was dark at the time and in putting the door down something got in between the floor and the door which was unobserved. In the door, he stepped on the door which at once tipped with him. The cellar is about eight feet deep and he was precipitated into it, getting such a wrench that he has been unable to walk since.

THE Toronto Week has entered upon its twelfth year under a new ownership and in a new and particularly handsome dress. Its announcement says: "The Week Publishing Company is composed of gentlemen representing both the great political parties of Canada. Its members are confined to no particular city or province. Under these conditions not only is political independence assured the Week, but also a tone and an aim thoroughly national and free from all taint of sectionalism or provincialism. To make the Week the best exponent of the best thought and life of the Canadian people is the chief object of the company, and the kindly interest and good will of our people are asked to further this object."

On Friday evening last, Mrs. Wilson, wife of D. B. Wilson, contractor, here, died suddenly whilst on her way to evening service at the Presbyterian church, near Sturgeon river. She and her daughter Jessie left the farm in a light rig, between six and seven o'clock. Having crossed the bridge at the foot of the hill near the church the horses endeavored to run away. One of the lines broke and Miss Jessie endeavored to draw them up with the remaining line. This only had the effect of turning the horses round, when they at once ran for home. William Craig, who saw the difficulty followed behind and overtook the team; but during the excitement Mrs. Wilson fainted. She was at once taken home, when it was found that death had overtaken her, heart disease being supposed to be the cause. Deceased had been ailing for a short while previously. She was the mother of Mrs. John Looby, Edmonton.

N. G. FLATER returned from Koney Island in Cooking lake, Saturday, having finished work on the club house and at clearing the island, for the season. There is a very considerable travel from Beaver lake to Edmonton by way of Cooking lake this winter.
The charge made by ex-Judge Travis against Peter McCarthy, Q. C. for unprofessional conduct, is now being considered by the supreme court at Regina, as an appealed case. Judge McGuire who decided against McCarthy in Calgary, will not form a part of the bench trying the case at Regina.
A MEMORIAL sermon on the late Donald McLeod was preached in Robertson hall yesterday afternoon, by the Rev. John McDougall, of Morley. There was a very large attendance. Rev. H. Andrews playing the piano accompaniments. The sermon was from Ecclesiastes, 12th chapter and 5th verse. "Because man goeth to his long home and the mourners go about the streets."
THE Winnipeg Commercial's Vancouver correspondent recently called upon the C. P. R. officials in regard to alleged rate discrimination against Vancouver and in favor of Winnipeg as to the trade of the Kootenay district. He says: A long conversation with the officials of the C. P. R. freight department convinced your correspondent that the question was too complicated to deal with off-hand. A most elaborate reason was given for every apparent incongruity, until after a lesson on freight rates lasting over an hour, your correspondent left with the impression that the Canadian Pacific was an institution kept running entirely for philanthropic purposes.

MUNICIPAL MATTERS.
The time for the annual municipal elections is approaching. No very great interest appears to be manifested in regard to positions on the council board. Several members of the present council have expressed their intention of not offering themselves at the coming elections, and new aspirants have not yet put on their war paint. It is creditable to Edmonton that there is not that unseemly thirst for public honors and office amongst its citizens which prevails in many places. But it will be quite as unfortunate if the men who carry the business of the town on their shoulders decline to take part in the management of municipal affairs, whether by reason of press of private business or the mere dislike to enter upon the turmoil of a contest. If the men who make the town do not take action to protect their interests—which are the public interests—in municipal affairs, they cannot reasonably expect others to do it for them, and if the right men do not come forward the wrong men certainly will. It is a mistake to think lightly of the position of a municipal councillor. Those who speak most lightly of the position are frequently the ones who talk most loudly of the iniquity of municipal politics and complain most persistently of the ill management of municipal affairs. The only way to cure municipal evils is to secure the election of the right men to act on right principles, and this cannot be done except the electors bestir themselves at election times.

There are many things connected with the future welfare of the place that the incoming council will have to deal with. These matters should be discussed by the electors and prospective candidates before the election and some policy agreed upon regarding them. There is the bridge question; the first on the list at the present time and probably the most important. Is it intended to let matters drift, or to use all proper exertions to secure the bridge in such a position as it will be of greatest benefit to the place, even at some cost? What is to be the policy as to ferries. Are matters to run as they have done, or is there to be a reduced charge or a free ferry? What of the electric railway for which a charter was granted last session by the Dominion parliament. Although the charter is in the name of a company, the town is the backbone of the scheme and is given a certain amount of control? The question of permanent right of way to the river is not yet settled, although some progress has been made in that direction. This is a matter that should be concluded with the least possible delay. Besides and above all these and other minor matters is the great question of economy in the administration of the civic affairs. The town is new and a great deal had to be done in a short time to provide the necessary sidewalks, graded streets, fire protection, etc. To keep the taxes down will require good management and a proper economy. Particularly it will be necessary to consider what any work will cost, and whether or not the money is available to pay for it, before it is undertaken. It is not business to incur a liability and then depend upon a vote of the ratepayers for a loan to cover the expenditure. If any expenditure is to be made beyond what the ordinary revenue will meet, it should be sanctioned by the ratepayers before it is incurred, and then kept within the limits of the amount sanctioned. The small leaks should be stopped. Ten dollars here and twenty there mount up to be an important sum in the course of a year, and it all comes out of the ratepayer in the end. It is to be hoped that the electors will consider these and like points between

now and election day and use such judgment in the support of the several candidates as will secure an energetic, efficient, and economical administration of our affairs during the coming year. Edmonton is no one horse town. It is a place of good standing and big ambitions. Whether or not Edmonton will become the chief city of the Northwest depends very greatly on the course taken now in its commercial and municipal affairs. The new council will be able to do a great deal to make or mar the future of the place and necessarily therefore that of every property holder in it. Now is the time to secure a good council, not after election day.

DISCRIMINATING RATES.
The price of Edmonton oats in Vancouver as quoted by the Winnipeg Commercial, is \$24 a ton, the freight is \$7.00 a ton, sacks at 3c a bushel \$1.80, handling at a cent a bushel 60c, selling commission at 10 per cent. \$2.40. Total deductions \$11.80, making value in warehouse at Edmonton \$12.20 a ton or 20½ cents per bushel. It will thus be seen that the price of oats at the coast must rise or the freight rates drop before any great improvement can be looked for in farmers' prices here, that is supposing the Commercial's quotation to be correct. If the reduction of the freight rate to the figure to which Edmonton is entitled according to the computed mileage, namely 28c per hundred, were given, it would make a difference in the value here of 2½ cents a bushel, a very important consideration at the present time. The people of Edmonton do not want the C. P. R. to contribute 2½c to them on every bushel of grain hauled west, but they also decidedly object to contributing to the C. P. R. 2½ cents on every bushel of their grain hauled west more than the same company charges farmers in other parts of the Territories for hauling like grain for a like distance to a like point. The reduction made in the rates last year by the company was of great benefit to this district by establishing a feeling of confidence in access to the western market and enabling our produce to be marketed, as it otherwise could not have been. But the subsequent drop in coast prices leaves us nearly as badly off as before, and demands the further reduction to the rate given on eastbound freight for the same computed distance. Aside from this consideration, however, Edmonton is entitled to the same rate west as other places are given east, and until it is given that rate it is being discriminated against by the railway company.

During the past summer three ferries were operated between Edmonton and the south side, one at the old crossing at the fort and two at the lower ferry crossing in front of the town, within a hundred yards of each other. These two ferries were not both running at that place because one would not have carried the traffic. They were there representing competing interests. When the ferry that formerly ran below Fraser & Co's. mill was removed to its present site, a great deal of valuable trade was lost to this place by reason of the change, giving the settlers east of the town and south of the river a much longer road to reach town. If the business will warrant the running of three ferries—as it apparently did last year—it would be well, if the charges are reduced, to place one of the three at the old crossing below the mill, to shorten the distance to people living east, to give ready access to the mill and to give the easiest grade up the hill to town. The interests of the town demand that customers be given the best possible facilities for reaching it, and certainly a ferry crossing there would greatly assist business with the settlers to the east.

Haultain has visited the railway rates commission in Winnipeg, with a view of preparing for their visit to the Northwest. The Winnipeg Commercial quotes the price of oats to farmers there at 23c for feed to 26c for choice white milling oats; barley 28c to 30c for feed and 31c to 33c for malting; wheat 42c to 44c at country points for No. 1 hard. Oats at country points 18c to 20c.

COMMUNICATION.
DEAR BULLETIN: Please tell the Rip Van Winkle of the Regina Standard that this an age of political progress; that representative men are elected to look after the interests of their electors; to develop the resources of the country and increase the happiness and prosperity of the nation, and that St. Albert electors are not ambitious to furnish amusement for a mob in Regina.
A ST. ALBERT ELECTOR.
St. Albert electoral district,
December 1st, 1894.

Tyndall the mind reader, has been astonishing Calgary with his exhibitions. The Winnipeg Free Press alludes editorially to the Winnipeg Nor'Wester, as "The Thing, which may now be considered the organ of Messrs. Rogers, Daly and Campbell, et al." The Winnipeg nest is pretty small for the three little birds. Manitoba and the Territories shipped this year 30,000 cattle, 10,000 hogs, 3,500 sheep and 200 horses. Shipments last year were 18,000 cattle, 3,700 hogs, 89 sheep and 11 horses. Of the cattle shipped this year, about one-half were from Manitoba, and the balance from the Territories. The hogs were about all from Manitoba, and the sheep and horses all from the Territories. A protest against the election of J. F. Betts for Prince Albert has been filed by his opponent James Taylor, the grounds being that a poll was not held at one of the polling places specified in the returning officer's proclamation and that sufficient polling places were not provided in the eastern part of the district for the number of voters there. It appears that it was physically impossible to hold the poll at Cedar lake, the place where no votes were cast. Mr. Betts' majority as counted was 72. Winnipeg Commercial: For the purpose of securing the rapid transport of dressed hogs, poultry, butter, cheese, etc., between Manitoba and British Columbia points, the Canadian Pacific railway company has decided to despatch a special car from Winnipeg at intervals during the winter, to carry such produce. This car is designed to carry less than car lots, and will take the place of the refrigerator car service in the summer. Lots of the products named will be picked up at any point on the main line between Winnipeg and Moose Jaw, destined for shipment to Canmore and points west thereof to the coast. This special car service will leave Winnipeg on the following dates: November 29th, December 13th and 27th, January 10th and 24th, February 7th and 21st, March 7th. The refrigerator car service over this route, during the past summer season, carried 700,000 pounds of butter, cheese and eggs. All this was taken from stations between Winnipeg and Moose Jaw inclusive, on the main line, for British Columbia points.

DISTRICT STATISTICS.

The following statement contains the information collected by the mounted police of C division during the recent fall, in regard to the population, crops and live stock of this district. The information is interesting and is generally approximately correct. It is indefinite, however, as to the limits of the several divisions, and of course cannot be expected to be as accurate as a regular census. It is to be regretted that a comparative statement showing the increase over last year cannot be given owing to last year's returns having been incomplete.

Town of Edmonton.—Population 1,021. Potato crop 30½. Broke land uncultivated 1 acre; horses 275; cattle 350; sheep 95; swine 162.

Edmonton settlement east to J. Coleman's.—Population 391; wheat 383 acres; barley 465; oats 1412; potatoes 64½; broke but not in crop 1894; horses 1777; cattle 947; sheep 343; swine 1,024.

South Edmonton village and settlement extending east to the colonization buildings at Clover Bar eight miles and south to a line drawn from the Old Man's Knoll to the Calgary trail.—Population 792, wheat 124, oats 837, barley 458, potatoes 61½, broke land not in crop 440, horses 449, cattle 1,035, swine 692, sheep 596.

Fort Saskatchewan village.—Population 140, no cultivation, horses 53, cattle 26, sheep 109, swine 5.

Sturgeon settlement.—Population 759, wheat 796½, oats 3,536½, barley 1,834, potatoes 121½, broke and not cropped 732, horses 824, cattle 2,165, swine 2,295, sheep 407.

Stony Plain.—Population 626, wheat 750, oats 924, barley 559½, potatoes 93, broke but not in crop 1,240, horses 333, cattle 751, swine 945, sheep 13.

St. Albert and Morinville.—Population 1465, wheat 746, oats 3,625, barley 2,140, potatoes 153½, broke but not in crop 2,369, horses 1,309, cattle 2,272, swine 2,521, sheep 1,215.

Leduc district.—Population 678, wheat 172, oats 699, barley 335, potatoes 84½, broke but not in crop 945, horses 363, cattle 682, swine 466, sheep 219.

Beaver lake district.—Population 428, wheat 310, oats 388, barley 393, potatoes 46½, broke but not in crop 386½, horses 673, cattle 1,043, swine 452, sheep 258.

Limestone lake and German settlement east of Fort Saskatchewan.—Population 436, wheat 389, oats 654, barley 368, potatoes 109, broke but not in crop 165, horses 264, cattle 666, swine 314, sheep 38.

Egg lake, Menawan post office.—population 98, wheat 15, oats 34, barley 37, potatoes 8, broke but not in crop 144, horses 152, cattle 391, swine 28, sheep 8.

Victoria settlement.—Population 77, wheat 23, oats 36, barley 24, potatoes 61, horses 77, cattle 78, swine 41.

In the above statement the number of horses given includes 53 stallions and 39 mules. The cattle column includes 367 broke oxen. Fourteen goats are included in the number of sheep.

Besides the crops shown as above, there are 351½ acres of timothy, 24 acres of rye, 42½ acres of peas, and 399½ acres of miscellaneous roots. Total not included in statement by districts 817½ acres.

Accepting the foregoing figures as correct, the totals would be 3,708 acres of wheat, 12,265 acres of oats, 6,647 acres of barley and 770½ acres of potatoes. The yield of wheat this year was above the average, but placing it at an average of 25 bushels per acre, which is certainly low, this would give 92,700 bushels of wheat. Barley was a fair crop, and placing the average yield at 25 bushels per acre would give 166,175 bushels of barley. Oats were a light crop in some districts but taking the low average of 40 bushels per acre would give 488,200 bushels. Potatoes were an excellent yield, but placing the average as low as 250 bushels per acre would give a total return of 192,562½ bushels, or a total yield of grain and roots, reckoning the miscellaneous crops, of over a million bushels.

The totals of live stock are, horses 6,549, cattle 10,246, sheep 3,733, swine 8,504. Total population 6,905.

SCHOOL BOARD.

At the adjourned school meeting held on Thursday evening last, a large number of applications for the position of principal and first and second assistant teachers of the Edmonton public school were considered.

Mr. Welbourn was heard in rebuttal of the charge of using insulting language, made by D. Ross.

It was decided to accept the application of Daniel Francis, of Pense, Assa., as principal; to re-engage Mr. Welbourn as first assistant, should he decide to re-engage; to accept the application of Miss. Lena Taylor of Vienna, Ont., as second assistant, and of Miss Duncan of Partridge hill, as primary teacher. A. G. Randall was elected auditor for the year at a salary of \$5.00.

Messrs. McCauley and McDonald were appointed a committee to arrange regarding the rent of the building used as a primary school on Fraser avenue.

Free Press: Now that three of the federal ministers are in the city it has been suggested that the committee who interviewed Hon. Mr. Laurier on the school question without gaining the point they desired, might approach these gentlemen. Nobody, of course, wishes to embarrass the ministers on this question; but their opinions should be made known. That committee will be remiss in their duty to the cause they have so much at heart if they do not lay their case before the ministers.

Hamilton Spectator: Another batch of 175 Barnardo boys has arrived in Canada. The Canadian government pays so much a head for this kind of immigrants, and good people all over the country make haste to provide them with comfortable homes. In the meantime the streets of this and every other Canadian city are full of boys who, closed out by the trades unions from a chance to learn a trade, are growing up in idleness, and useless. Nobody does anything for them. The government doesn't put them on a Northwest farm; good people do not seek for them to give them comfortable homes, and they are left to begin at home; but that rule does not seem to work in the case of Barnardo boys.
